With over 50 museums on offer, there will always be something spectacular to see.

The Experience

Realising True Potential

Our unparalleled educational model is all about partnership. Every student has unique skills, strengths and dreams, and our role is to mentor and guide our students, to introduce and explore new concepts, to inspire them and help them realise their true potential.

Many young people are capable of exceptional academic, personal and commercial success, but they are simply not aware of opportunities available to them. By offering a taste of quality higher education, multi-cultural experiences and innovative subject matter, we can help them to identify their strengths, passions and ambitions.

The Very Best Teaching Faculty

Our teaching brings out the very best in every individual through small class sizes and an emphasis on interaction. All courses include workshops, seminars, discussion groups, practical work and lively debates. Our outstanding, talented faculty develop and run future-focussed courses to help drive students towards ambitious goals, motivating them to achieve more than they ever believed possible.

At Oxford Royale, students stretch the boundaries of traditional education by trying innovative activities such as making robots, live debates, pitching a new business idea and discussing the premise for their first novel.

Many of our alumni have continued their studies at some of the top universities in the UK and the US, such as Oxford, Cambridge, Princeton and Berkeley, and have gone on to great careers and to make tremendous contributions to industry and research.

Join a Global Community

We believe that global awareness, varied cultural experiences and broad international networks are key to carving a truly strong and successful path in a highly competitive world. Oxford Royale's summer schools offer exactly this.

The Oxford Royale experience gives students the opportunity to connect with and befriend like-minded peers from around the world. The cultural enrichment activities, social events and excursions that we offer outside the classroom timetable include treasure hunts, city tours, sporting activities and, of course, the grand finale of each course, the graduation ceremony.

Our aim is for all students to have a life-changing experience full of fun!

A Typical Day of Learning and Discovery

9am

Morning class begins with an inspirational lesson from a member of our exceptional faculty. Students will also have the opportunity throughout their course to experience a range of modern and effective teaching methods from teaching staff to aid their academic growth.

11am

The second lesson of the day aims to motivate students with a lecture exploring key themes and issues going deeper into the subject and encouraging creative thinking and sharing of views.

12:30pm

Enjoy a leisurely lunch with friends or take a stroll around the breathtaking Spanish style courtyards of the Clark Kerr campus.

1:30pm

Back to the classroom for a masterclass or practical lesson. Students can get hands on in their field of study, learning about advanced robotics, the process of a legal trial, or how to bring a new business proposition to market. There will also be the opportunity to develop job interview skills, and a CV workshop.

3pm

Time for some cultural exploration! Visit the Berkeley Art Museum, or explore nature in the Botanical Gardens.

6pm

Dinner is a time to catch up with friends and share the day's discoveries. With so many new experiences every day, there is plenty to talk about as students relax and plan the evening ahead.

7pm

Evening activities both on and off campus give students a taste of life in the US. Options might include watching a football or basketball game, going bowling or simply eating at a classic American diner. After an evening of excitement, it's time for students to start winding down for the evening, ready for another day with Oxford Royale!
